

The Hattiesburg Song
by Althea Jerome

(piano introduction)

There's a place in Mississippi
Its the place that we call home
Its the place that we are proud of
Its the place where we have grown

So no matter who you are
And no matter what you do
Here in Hattiesburg
There is something just for you

There are public schools and
colleges
Where anyone can learn
There are businesses and industries
For the dollars we must earn

There are parks for recreation
And churches where we pray
Here in Hattiesburg
We are proud that we can say

There's a place in Mississippi
Its the place that we call home
Its the place that we are proud of
Its the place where we have grown

So no matter who you are
And no matter what you do
Here in Hattiesburg
There is something just for you

There are forests of tall pine
trees
There are rivers, lakes and streams
There are places full of beauty
In town and country scenes

And her heritage has helped us
To grow up in this way
Here in Hattiesburg
We are proud that we can say

There's a place in Mississippi
Its the place that we call home
Its the place that we are proud of
Its the place where we have grown

So no matter who you are
And no matter what you do
Here in Hattiesburg
There is something just for you

Here in Hattiesburg
There is something just for you
